KL NDA

Overpack Salvage Drum

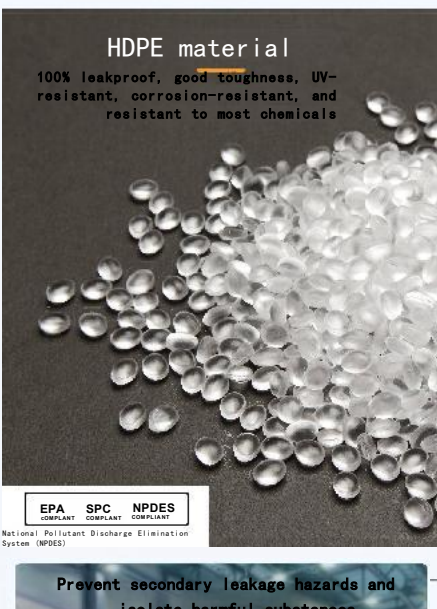

Advantages

High Quailty

- Not afraid of high temperatures
- Strong corrosion resistance
- Resistant to collision and pressure
- Choose best materials
- Stable performance
- No weird smells

HDPE material

100% leakproof, good toughness, UV-resistant, corrosion-resistant, and resistant to most chemicals

EPA COMPLANT SPC COMPLANT NPDES COMPLIANT

National Pollutant Discharge Elimination System (NPDES)

Prevent secondary leakage hazards and isolate harmful substances

Widely used in secondary packaging, transportation and transfer, and leakage accident treatment to prevent the occurrence of secondary leakage of hazardous materials and leaked materials

One-step product forming

Polyethylene material, one-time rolling forming, leak-proof, good toughness, corrosion resistance, can be nested

Wheels for easy transfer

The handle and caster design make it easy to carry various containers and materials without the help of a forklift, and can also achieve the effect of preventing leakage.

Specification

20 Gallon mobile Overpack Salvage Drum

Model：WSD200

capacity(gal/L):20/75.7

Loading capacity(Kgs):60kg

65 Gallon mobile Overpack Salvage Drum

Model：WSD650

capacity(gal/L):65/246

Loading capacity(Kgs):300kg

Application

加油站

液体油类

化工厂

化学实验室
